Cobble Clean

Cobble Clean is a blend of biodegradable solvents and detergents formulated for heavy duty degreasing. Use to remove oil, grease stains, chewing gum, and tire marks.

Directions

Always test surfaces first with Cobble Clean in an inconspicuous area for desired results. Cobble Clean is a super concentrate and should be diluted with water. For general degreasing, cut 1 part cleaner with 10 to 15 parts water. If the surface is more soiled, decrease the ratio of water as necessary. For tough stains and tire marks use cleaner straight. Cobble Clean will remove some sealers and coatings.

Oil spots that have deeply penetrated the substrate may rise to the surface within 24 hours of initial cleaning. It may be necessary to repeat cleaning.¹

Characteristics and Technical Data

Appearance	Amber Liquid
Solubility in water	100%
WT./GL.:	8.5lbs
Coverage:	50 to 500 SqFt./Gl. depends on dilution.

Dry Times

Do not let the cleaner dry on the surface always rinse thoroughly!!

Packaging & Unit Shipping Weight

1- gal cans- 4 gal. per case- 40 cases per pallet: 35 lbs per case

5- gal pails- 36 pails per pallet: 45 lbs per pail

Use with adequate ventilation.

All Reliance Supply Company products are manufactured with the finest raw materials. The shelf life is 12 months from date of purchase when maintained in protected storage of 50F to 90F. It is the applicator's responsibility to determine the appropriate use of the product. All recommendations and suggestions are made without guarantee, since the conditions of use are beyond our control.
